

Single Chemical Portaloos

Our Single Chemical portaloos are of the highest quality and never used at building sites. This means they stay clean and smart and you don't have to worry about using them for your events.

This unit is part of our standard range and is therefore an excellent budget option or perfect for those events where space is limited or access is difficult. Each unit is only 1 meter square in size and easy to manoeuvre into position by hand. Each unit can hold up to 100 people over an 8 hour period.

The unit is provided fully stocked with:

- Toilet rolls
- Hand Sanitizer

Please note that these units are not provided with any form of lighting nor do they come with running water.

The dimensions of this unit are:

- 1 meter squared
